Many are familiar with the Suzuki String Program, but unaware that Suzuki Flute is also available, with a long and rich tradition in the U.S. Students may start as young as age 4 or 5 years old and play on a “curved-head” flute, where the head-joint curves to enable young students to reach the keys. All the same principles of Suzuki teaching apply with an emphasis on beautiful tone, aural skills and memorization, playing in groups, and having fun!
